

ALABAMA WATER WATCH MONITORING SITE DATA FORM

Sampling Sites: Use the acronym “CLASS” to remember the general factors to consider when selecting a water monitoring site: to be convenient, to have legal access, to be accessible and safe, and to be strategic. Optimal monitoring sites are those that provide the best information to satisfy objectives with the least amount of effort. Choose a site that is not too difficult or dangerous to access and is strategically located to be efficiently monitored. It is essential to know the precise location of a monitoring site for full use of the data. Please carefully describe your site information and submit this form with your first set of data taken at the site.

Monitor(s): _____

Contact Phone Number: _____

Contact Email: _____

AWW Group Affiliation (e.g. Little River Watch) _____

Waterbody: _____

Watershed: _____
