

# How to Cross-list Courses in Canvas

1. Hover over **Courses** to popup your course list. Select one of the sections you want to cross-list. This will become the **Cross-List Parent**. This means the other sections, or Children, will be enrolled into the Parent.

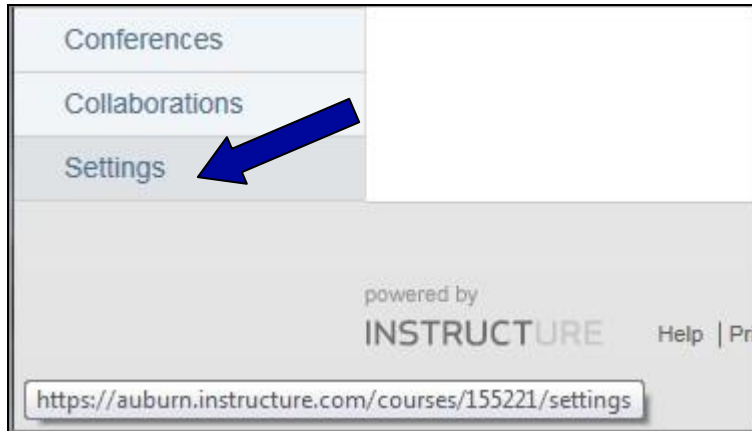

2. Copy or write down the number in the URL for the Parent course. You will need this later.

3. Select another section to be the **Child** section.

4. Select the **Settings** link

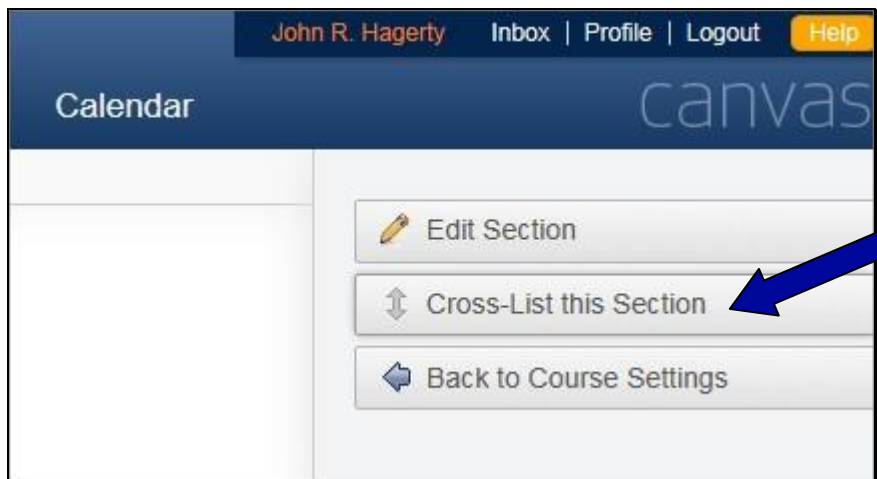

5. Select the **Sections** link

- Click the name of the course on the right.

- Select the **Cross-List this Section** link

8. Enter the number from the **Parent** course. Press Enter on the keyboard

**Cross-List this Section**

### Cross-List Section

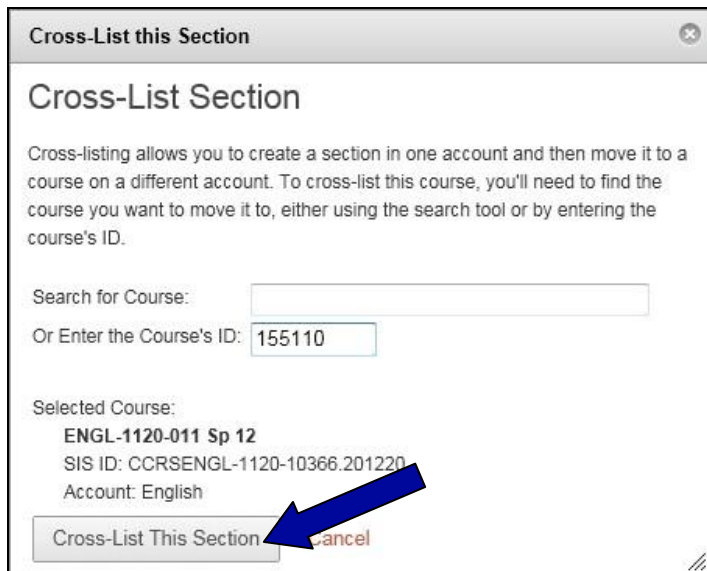

Cross-listing allows you to create a section in one account and then move it to a course on a different account. To cross-list this course, you'll need to find the course you want to move it to, either using the search tool or by entering the course's ID.

Search for Course:

Or Enter the Course's ID:

Selected Course:  
**Confirming Course ID "155110"...**

9. Click the **Cross-List This Section** button

**Cross-List this Section**
