

## CURRICULUM VITAE FOR DOMINIC T. CHENG, PH.D.

Auburn University • Department of Psychology

226 Thach Hall • Auburn, AL 36849

Phone: 334-844-6489 • Fax: 334-844-4447 • E-mail: dcheng@auburn.edu

---

### EDUCATION AND TRAINING

<u>Dates</u>	<u>Degrees</u>	<u>Institutions</u>	<u>Disciplines</u>
1990-1994	B.S.	University of Illinois at Urbana-Champaign	Psychology
1997-2002	M.S.	University of Wisconsin-Milwaukee	Psychology
2002-2005	Ph.D.	University of Wisconsin-Milwaukee	Psychology
2005-2010	Postdoc	Johns Hopkins University	Cognitive Neuroscience

### PROFESSIONAL EXPERIENCE

<u>Dates</u>	<u>Positions</u>	<u>Institutions (Lab PI)</u>
1992-1994	Undergraduate RA	University of IL at Urbana-Champaign ( <i>Dr. Neal Cohen</i> )
1996-1997	Post-baccalaureate RA	Stanford University ( <i>Drs. John Gabrieli &amp; James Gross</i> )
1997-2005	Graduate RA	University of WI-Milwaukee ( <i>Dr. Fred Helmstetter</i> )
2005-2010	Postdoctoral Fellow	Johns Hopkins University ( <i>Dr. John Desmond</i> )
2009-2016	Co-Investigator	Wayne State University ( <i>Dr. Sandra Jacobson</i> )
2010-2016	Faculty Research Associate	Johns Hopkins University
2016-pres	Assistant Professor	Auburn University

### RESEARCH ACTIVITIES

#### Manuscripts

1. **Cheng, D. T.**, Knight, D. C., Smith, C. N., Stein, E. A., & Helmstetter, F. J. (2003). Functional MRI of human amygdala activity during Pavlovian fear conditioning: Stimulus processing versus response expression. Behavioral Neuroscience, 117(1), 3-10.
2. Knight, D. C., **Cheng, D. T.**, Smith, C. N., Stein, E. A., & Helmstetter, F. J. (2004). Neural substrates mediating human delay and trace fear conditioning. Journal of Neuroscience, 24(1), 218-228.
3. Knight, D. C., Smith, C. N., **Cheng, D. T.**, Stein, E. A., & Helmstetter, F. J. (2004). Amygdala and hippocampal activity during acquisition and extinction of fear conditioning. Cognitive, Affective, and Behavioral Neuroscience, 4(3), 317-325.
4. **Cheng, D. T.**, Knight, D. C., Smith, C. N., & Helmstetter, F. J. (2006). Human amygdala activity during the expression of fear responses. Behavioral Neuroscience, 120(6), 1187-1195.
5. **Cheng, D. T.**, Richards, J. A., & Helmstetter, F. J. (2007). Activity in the human amygdala corresponds to early, rather than late period autonomic responses to a signal for shock. Learning and Memory, 14(7), 485-490. PMID: PMC1934343.
6. **Cheng, D. T.**, Disterhoft, J. F., Power, J. M., Ellis, D. A., & Desmond, J. E. (2008). Neural substrates underlying human delay and trace eyeblink conditioning. Proceedings of the National Academy of Sciences USA, 105(23), 8108-8113. PMID: PMC2430367.

7. **Cheng, D. T.**, Faulkner, M. L., Disterhoft, J. F., & Desmond, J. E. (2010). The effects of aging in delay and trace human eyeblink conditioning. Psychology and Aging, *25*(3), 684-690. PMID: PMC2944000.
8. Liu, C. C., Crone, N. E., Franaszczuk, P. J., **Cheng, D. T.**, Schretlen, D. S., & Lenz, F. A. (2011). Fear conditioning is associated with dynamic directed functional interactions between and within the human amygdala, hippocampus, and frontal lobe. Neuroscience, *189*, 359-369. PMID: PMC3150454.
9. **Cheng, D. T.**, Meintjes, E. M., Stanton, M. E., Desmond, J. E., Pienaar, M., Dodge, N. C., Power, J. M., Molteno, C. D., Disterhoft, J. F., Jacobson, J. L., & Jacobson, S. W. (2014). **FUNDING****Previous**

University of WI-Milwaukee Advanced Opportunity Fellowship 1999-2001

Bill and Melinda Gates Foundation Scholarship 2000-2005

R01 AG021501 Desmond (PI) 06/01/04 – 05/31/10

NIH/NIA

fMRI analysis of aging and awareness in conditioning

The goal of this project is to investigate how aging and stimulus contingency awareness affects medial temporal and cerebellar activation in classical eyeblink conditioning.

Role: Co-Investigator

R01 AA016781 Jacobson (PI) 07/15/08 – 06/30/13

NIH/NIAAA

Neural bases of eyeblink conditioning in FASD

The goal of this project is to characterize the neural substrates underlying eyeblink conditioning in children diagnosed with fetal alcohol spectrum disorder (FASD).

Role: Co-Investigator

R01 AA018694 Desmond (PI) 09/01/10 – 08/31/16 (NCE)

NIH/NIAAA

fMRI investigations of cognition in alcoholics

The goal of this research is to characterize differences between alcoholics and non-alcoholics in cerebro-cerebellar brain function underlying cognitive performance using fMRI with tasks of human working memory.

Role: Co-Investigator

**Current**

K01 AA020873 Cheng (PI) 09/30/11 – 08/31/17 (NCE)

NIH/NIAAA

Neuroimaging of eyeblink conditioning in subjects with alcohol use disorders

The goal of this research is to investigate how alcoholism affects brain structures critical for a fundamental form of memory, eyeblink classical conditioning.

Role: Principal Investigator

**EDUCATIONAL ACTIVITIES****Teaching**Classroom Instruction

Fall 1997	Introduction to Psychology, Teaching Assistant, University of WI-Milwaukee
Spring 1998	Research Methods in Psych., Teaching Assistant, University of WI-Milwaukee
Fall 1998	Introduction to Psychology, Teaching Assistant, University of WI-Milwaukee
Spring 1999	Research Methods in Psych., Teaching Assistant, University of WI-Milwaukee
Summer 2001	Advanced Physiological Psychology, Guest Lecturer, University of WI-Milwaukee
Spring 2013	The Cerebellum: Is It Just for Motor Control?, Guest Lecturer, Johns Hopkins
Spring 2014	The Cerebellum: Is It Just for Motor Control?, Guest Lecturer, Johns Hopkins
Spring 2015	Clinical Neuroscience Seminar, Guest Lecturer, Johns Hopkins
Fall 2016	Psychology of Learning, Instructor, Auburn University

Workshops

Summer 2004            fMRI Workshop – AFNI Session, Instructor, Medical College of Wisconsin  
 Fall 2004                fMRI Workshop – AFNI Session, Instructor, Medical College of Wisconsin

**Professional Societies**

1997-present	Society for Neuroscience
2002-2006	Organization for Human Brain Mapping
2004-present	Pavlovian Society
2006	Cognitive Neuroscience Society
2012-present	Research Society on Alcoholism
2012-present	International Society for Behavioural Neuroscience

**RECOGNITION****Awards and Honors**

1993	National Dean's List Nominee
1998	Human Brain Mapping Poster voted in top 10%
1999-2001	UWM Advanced Opportunity Program Fellowship
1999-2004	AGSIP (Association of Graduate Students in Psychology) Travel Award (x5)
2000-2005	Bill and Melinda Gates Foundation Scholarship
2003	Organization of Human Brain Mapping Travel Award
2005	UWM Graduate Research Symposium Presentation Award – <i>First Place</i>

**Invited Talks**

Response versus Stimulus-Based Analysis of Functional Brain Images in Human Fear Conditioning. *Graduate Research Symposium*, University of Wisconsin-Milwaukee, Milwaukee, WI. October, 1998.

The Challenges of a Graduate Education from a Student Perspective. *Bill and Melinda Gates Millennium Scholars Leadership Seminar for Graduate Students*, Chantilly, VA. January, 2001.

Navigating Your Campus from a Student Perspective. *Bill and Melinda Gates Millennium Scholars Leadership Conference*, Los Angeles, CA. November, 2002.

Multicultural Panel Discussion (Asian Americans). *Professional Development and Issues in Clinical Psychology*, University of Wisconsin-Milwaukee, Milwaukee, WI. February, 2003.

Human Pavlovian Fear Conditioning and Awareness: An Event-Related fMRI Study. *Medical College of Wisconsin Fall Neuroscience Student Presentations*, Milwaukee, WI. September 2003

fMRI of Human Pavlovian Fear Conditioning. *Neuroscience and Physiology Brown Bag*, University of Wisconsin-Milwaukee, Milwaukee, WI. November 2004

Functional Neuroimaging of Fear Learning in Humans. *Graduate Research Symposium*, University of Wisconsin-Milwaukee, Milwaukee, WI. April, 2005.

Functional MRI of Human Eyeblink Conditioning. *Sensorimotor Research Day*, Johns Hopkins University School of Medicine, Baltimore, MD. December, 2009.

Functional MRI of Human Neural Substrates Important for CS-US Contingency Awareness during Delay and Trace Eyeblink Conditioning. *Society for Neuroscience Nanosymposium*, San Diego, CA. November, 2010.

Neural Substrates of Human Associative Learning. *Neuroscience Seminar*, West Virginia University, Morgantown, WV. December, 2010

Functional MRI of Human Classical Conditioning. *Clinical Neuroscience Seminar*, Johns Hopkins University School of Medicine, Baltimore, MD. March, 2011.

Neural Substrates Underlying Human Classical Conditioning. *Stress and Motivated Behavior Institute Seminar*, U.S. Department of Veteran Affairs, East Orange, NJ. June 2012.

Functional MRI Investigations of Human Classical Conditioning. *International Society for Behavioural Neuroscience Annual Meeting*, Half Moon Bay, CA. June 2012.

Functional MRI and tDCS Investigations of Human Eyeblink Conditioning. *International Graduate School of Neuroscience Conference*, Ruhr-University Bochum, Germany. March 2013.

Impaired Human Eyeblink Conditioning Associated with Aging and Alcohol Abuse. *NeuroAIDS Seminar*, Johns Hopkins University School of Medicine, Baltimore, MD. May, 2013.

A History of Eyeblink Classical Conditioning as a Model of Learning. *International Society for Behavioural Neuroscience Annual Meeting*, Montreal, Canada. June 2013.

Neuroimaging and Neuromodulation of Human Eyeblink Conditioning Circuitry. *Puerto Rico Chapter of the Society for Neuroscience Annual Conference*, Ponce, Puerto Rico. December 2013.

Neural Mechanisms of Learning and Memory in Humans. *Center for Cognitive Medicine Seminar*, Vanderbilt University, Nashville, TN. January 2014.

Neural Mechanisms of Learning and Memory in Humans. *Department of Psychology Colloquium*, Wright State University, Dayton, OH. April 2014.

A Functional MRI Study of the Effects of Prenatal Alcohol Exposure on Eyeblink Classical Conditioning in Children. *International Society for Behavioural Neuroscience Annual Meeting*, Amsterdam, Netherlands. June 2014.

Functional Neuroanatomy of Human Eyeblink Conditioning. *Cognitive and Behavioral Neuroscience Colloquium*, Stony Brook University, Stony Brook, NY February 2015.

Functional Neuroanatomy of Human Eyeblink Conditioning. *The Institute for Medical Psychology and Behavioral Neurobiology Colloquium*, University of Tübingen, Germany. March 2015.

Transcranial Direct Current Stimulation and Human Eyeblink Conditioning. *Section on Neurobiology of Fear and Anxiety Colloquium*, National Institute of Mental Health, Bethesda, MD May 2015

Neural Mechanisms Underlying Human Classical Conditioning. *Department of Psychology Colloquium*, Auburn University, Auburn, AL May 2015.

Human Eyeblink Conditioning: Basic Neural Mechanisms and Clinical Relevance. *Special Lecture sponsored by the Office of Graduate Studies and Research*, Texas A&M-Textarkana, TX October 2015

Conscious Awareness in Human Eyeblink Conditioning: Evidence from fMRI and tDCS. *5th Annual UAB & Auburn Brain Imaging Retreat*, Lake Martin, AL July 2016

How Development, Age, and Alcohol Affect Neural Mechanisms Underlying Eyeblink Classical Conditioning. *Department of Psychology Colloquium*, The University of Alabama at Birmingham, Birmingham, AL November 2016
