I’m **Jacari Holt**, and it is an honor to share my passion and vision for Auburn with you! I come from the small town of Florence, AL and growing up I dreamed of becoming part of a diverse community that would expose me to different ideas and perspectives as I step into the real world. For that reason exactly, Auburn has found its way into my heart. We as a student body come from countless backgrounds, races, religions, perspectives and opinions. I, myself, am a man rooted in my faith believing that we are all placed and chosen to live lives that are capable of making a lasting impact in whatever way that might be. Our time here at Auburn might be short, but **Now’s the Time** for us to walk with a spirit that is not afraid to dream of an Auburn that we would be proud to leave behind.

**Student Life**

1. **“Tiger Day of Service”** - The first Saturday in February, the Auburn Family would start the semester by giving back to the community we all love. Individuals and all organizations will be invited to volunteer in the surrounding areas.
2. Bring back the C-Store in RBD and allow students to purchase items with their Tiger Cards.
3. Have a tailgate tent outside the football and basketball stadium for larger games where students can watch the game if the student section fills. Food trucks will also be available along with live bands or DJ.
4. Bring Toomer’s Lemonade and Auburn Popcorn Company inside Jordan-Hare. Also, I hope to have two food trucks inside the stadium to cut down on concession lines and sell alcohol.

**Diversity**

1. Expand smaller organizations by allowing them to set up tables at the Freshman Convocation to enable them to grow.
2. In the past year, 100 high schools (a large majority from low-income areas) in Alabama did not submit apply to Auburn. I believe that students should be presented with every opportunity to be informed about the scholarships and aid available to them. I plan to have student leaders speak to 30 of these schools in person and a video of this presentation be sent to the rest of these high schools.
Safety
1. Hold a free self-defense seminar at the Rec Center once a semester.
2. Establish a Security Shuttle App that will allow you to see the shuttle locations and ETA.

Food Insecurity & Sustainability
1. It is reported that more than 30% (roughly 7,634 students) of the Auburn Family are food insecure. We have organizations such as Campus Kitchens and On-Campus Food Pantry located inside the Student Center that many students are unaware of. I propose a half-marathon/5k that will bring about awareness and donations towards their efforts to battle this pressing issue.
2. A Farm to Table Restaurant, in the new dining hall, that will have 50% of the food coming from farmers across the state of Alabama, meat from the Auburn meat lab, tilapia from our Aquaponics center, and Good Agricultural Practices (GAP) certified.
