Year: 03
Major: Global Studies
Minor: Hunger Studies

Qualifications:
SGA President Pro-Temore
Social Sorority Chapter President
Project Manager with Tiger Dining
Camp War Eagle Camp Counselor
Student Recruiter

Platform:

War Eagle,

My name is Ada Ruth Huntley, and I am honored and privileged to be running for SGA President. Auburn is a unique place, and I have been blessed with the opportunity to see many different facets of it through my involvement, academics, research, and studies abroad. This has led to me developing a deep love for this university and the people that make it what it is - the Auburn family.

This campaign is all about the Auburn family. It is about recognizing that every member of the Auburn family brings something amazing and special to the table. It is about meeting these individual members where they are and taking the time to understand where they come from. It is about doing everything we can to make an already good Auburn experience a great one. And you can make that happen if you Make it Happen with me.

CAMPUSS LIFE
- Advocate for more food options in less-central areas on campus so food meets students where they are
- Advocate for a digital transaction feature on the GET Mobile App allowing students to transfer funds to other students’ accounts
- Create a system allowing students to pay for parking tickets with community service hours
- Advocate for free laundry for on-campus housing as well as an app to track the completion of laundry progress in real time
- Develop a feature through Campus Safety allowing students to track security shuttles in real time
- Advocate for a scooter rental service on campus

INITIATIVES
- Establish a foreign language exchange program to match students taking a foreign language course to students who speak that language fluently
- Create a partnership between SGA and other organizations to develop an equity, diversity, and inclusion certification program for on-campus organizations
• Host a hunger awareness week educating the Auburn family on what college hunger is, its prevalence, and eradicating the stigma associated with seeking help for food insecurity
• Develop a host family program allowing local families to host on-campus students who are unable to travel home for extended breaks
• Add a “Director of Basic Needs” to SGA’s Cabinet to work with campus partners who aid students in meeting their basic needs like ensuring food and shelter
• Conduct “listening tours” where SGA meets students where they are to listen to student concerns and/or issues

WELLNESS
• Create a nutrition-based dining app that filters menus based on dietary needs, restrictions, or allergies and rewards students for making healthy on-campus choices
• Establish a task force to assess the current state of mental health amongst the Auburn family and come up with solutions to solve the problems
• Advocate for a smoothie option on campus
• Create a podcast in collaboration with other campus partners to highlight Auburn leaders that openly discuss mental health
• Work with campus partners to develop a nutrition resource center on campus to aggregate the resources Auburn offers for nutrition and food insecurity
• Advocate for the addition of a military-trained counselor to Auburn’s mental health resources to better support student veterans specifically

Sincerely,

Ada Ruth Huntley
