PUSH YOUR PRESIDENT TO SIGN
HANDBOOK

www.pushtosign.org
Humans have wrestled with the problem of hunger since the beginning of time, but when the food crisis of 2007-2008 swelled the ranks of the hungry to 1 billion, national leaders put it at the top of the global agenda. Progress has been made; however, much more needs to be done to achieve the Zero Hunger Challenge issued by the UN’s Secretary General so every man, woman, and child on earth has access to sufficient, nutritious food.

UNIVERSITIES CAN BE THE KEY

Individual universities have made significant contributions to food security, but never before have joined in collective action to share best practices in teaching, research, outreach and student engagement to address food and nutrition security. University presidents from every continent are signing The Presidents’ Commitment to Food and Nutrition Security and creating an international momentum in the fight against hunger.

STUDENTS CAN BE THE CATALYST

History has proven the transformational impact that students have when they unite behind an important issue. Using 21st Century innovation, connected through technology and impassioned by the desire to finally end this ancient scourge – YOU are the generation that will end hunger.

Universities Fighting World Hunger:

Is a grassroots and academic movement that was started in 2004 as a partnership with the UN World Food Programme. Since that time the movement has spread to more than 300 campuses and today includes a number of international and domestic multi-sector partners. PUSH to Sign is an initiative of UFWH.

UFWH holds an annual Summit each year which will be at the University of Guelph in Ontario, Canada on Feb 20-22, 2015 and will feature a gathering of PUSH Campus Coordinators as well as student leaders, administrators and leaders from all sectors dealing in solving hunger.

  - Try some fun PUSH visibility events:
    - PUSH-ups for Hunger
    - PUSH: Human dominos on your main lawn
    - Remember to collect as many signatures as possible at the event!

World Food Day is a day of action against hunger. On October 16, people around the world come together to declare their commitment to create a world free from hunger and malnutrition.

Because when it comes to hunger, the only acceptable number is zero.

World Food Day has been observed in almost every country by millions of people since it was first established in 1979 to commemorate the founding day of the Food and Agriculture Organization of the United Nations (FAO).

From hunger walks, World Food Day dinners, food packaging events, and food drives there are many ways for people to be a part of solutions to hunger. Find events and join the campaign at www.worldfooddayusa.org.
