Follow the step-by-step instructions to create an account and start building your ePortfolio with Wix.

Set Up an Account

STEP 1
Open your web browser and go to www.wix.com. Once the page has loaded, click the “Get Started” button.

STEP 2
Click on “Sign Up.”

STEP 3
Create your account.
Enter your email and a password and click the “Sign Up” button to create your new Wix account.

(Continued next page...)
When you reach this screen, click “Skip” in the bottom right hand corner.

Click the “Choose a Template” button.

Wix will provide a variety of templates from which you can choose. You can search for key words or sort by categories using the menu on the left.

To preview a template, hover your mouse over it and click the “View” button.
When you are ready to make your selection, hover over the template you’re choosing and click the “Edit” button.

**IMPORTANT!** Once you choose a template, Wix does not allow you to change it, so be sure to take your time when making your choice.

**Congratulations!** Your initial account set up is now complete. Wix will now take you to your editor, where you can begin developing your website.
Now that you’ve set up your account, it’s time to explore Wix and practice using the system. Below is a list of common activities you are likely to need to complete during the process of creating your ePortfolio. Using these lists as a guide, try to accomplish as many of the activities as possible. If you need help, visit the Wix Help Center at support.wix.com where you will find many resources to help you get started and answer questions you may have along the way.
